October 3, 2000

## Registration and Title Bulletin # 94-00

To: All County Tax Assessor-Collectors

Subject: Print Quality

### PURPOSE

To stress the importance of producing documents with the best print quality possible.

### DETAILS

Your assistance is needed to improve the microfilming process. The department has been receiving RTS receipts that are difficult to read due to the use of cartridges that are low on toner. Attached is a copy of a poorly printed Title Correction Receipt received by the department. Poor print legibility causes the microfilming vendor to have problems scanning the information.

### ACTION

We respectfully urge you to monitor the print quality and to replace the cartridges when necessary to ensure the highest print quality. The average shelf life for a laser toner cartridge is 2 ½ years. However, once the light protective foil bag has been opened, the average shelf life is only 6 months. Please be sure to monitor and rotate your stock to ensure that the laser toner cartridges do not exceed their shelf life.

### VTR CONTACT PERSONS

If you have any questions concerning this bulletin, please contact your local TxDOT Vehicle Titles and Registration Division Regional Office. Thank you very much.

Sincerely,

For:

Jerry L. Dike, Director  
Vehicle Titles and  
Registration Division
